PROFESSIONAL SUMMARY

Full-Stack & AI Engineer with 4+ years shipping products end-to-end.

20+ products shipped end-to-end · 5 live on the App Store & Google Play · 6,000+ users across shipped apps.

- **AI Product Engineering** — LLM apps, realtime voice agents, OCR & vision
- **Full-Stack Web** — Next.js, React, Node.js, Flask
- **Cross-Platform Mobile** — Flutter, React Native
- **Payment & Banking Systems** — Way4, ISO 8583

EDUCATION

VinUniversity — “AI in Actions” (AI20K) 04/2026 – Present

Program: Applied AI — building real products end-to-end

Focus: LLMs, OCR, agentic workflows, production deployment

Hanoi University of Science and Technology 10/2020 – 07/2024

Major: Computer Science · **Graduation Grade:** Very Good

SKILLS

- | | |
|-----------------------------|---|
| Key Technical Skills | <ul style="list-style-type: none">• AI & LLM: Realtime voice agents, agentic workflows, OCR & vision, LLM app integration, AI speech• Frontend: React, Next.js, TypeScript, Tailwind CSS• Mobile: Flutter (Clean Architecture, Riverpod), React Native• Backend: Node.js, Python (Flask), GraphQL, RESTful API• Database: PostgreSQL, Prisma / Drizzle, Supabase, Oracle, Firebase• DevOps & Cloud: Docker, Vercel, GitHub Actions, Fastlane |
| Soft Skills | <ul style="list-style-type: none">• Read and synthesize English technical documentation quickly• Strong collaboration with business / QA / Infra teams; proactive problem-solving• End-to-end product thinking with a full-stack mindset (web + mobile)• Clean-coding advocate focused on performance, profiling and maintainability |

WORK EXPERIENCE

- | | |
|--|-------------------|
| VinUniversity — AI in Actions (AI20K)
Applied AI Builder | 04/2026 – Present |
| Automotive Service Platform (GarageViet)
Full-Stack Web & Hybrid Mobile Developer | 02/2025 – Present |
| EPOSO AI
Full-Stack Developer (Remote) | 11/2024 – 01/2025 |
| OpenWay Vietnam
Associate Implementation Engineer | 07/2024 – 11/2024 |
| OpenWay Vietnam
Frontend Web Developer & Hybrid Mobile App Developer | 10/2022 – 07/2024 |

PROJECTS

- | | |
|--|----------------|
| GarageViet — Automotive Service Platform
Full-Stack & Mobile Engineer
Tech: Flutter (Clean Architecture, Riverpod), Flask, Firebase FCM, Docker, Next.js, REST API · garageviet.vn · App Store · Google Play
• 5,000+ downloads · 400+ partner garages · 3,000+ booking & quotation requests on a two-sided marketplace. | 2025 – Present |
|--|----------------|

- Built the Flutter app (Clean Architecture + Riverpod) and a Flask REST backend with booking and quotation flows.
- Containerized the backend with Docker and automated app + server releases with Fastlane & GitHub Actions; live on the App Store & Google Play.

VCareer — AI Career Platform (VinUni CECS)

2026 – Present

Full-Stack Engineer · flagship MVP for VinUni CECS

Tech: Next.js, TypeScript, realtime voice AI, Neon Postgres, Drizzle ORM, Better Auth, Vercel · [Live demo](#)

- **120+ students** ran realtime voice mock-interviews with instant AI feedback before real interviews.
- Built and shipped the entire platform end-to-end — the flagship MVP for VinUni CECS.
- AI-assisted CV improvement plus one-click AI portfolio generation and tools for career-services staff.

GradeAI — AI Handwritten-Essay Grader

2026 · VinUni AI20K

Builder

Tech: Next.js, Supabase, OCR, LLM Grading, PostgreSQL, Tailwind CSS · [gradeai.site](#)

- Cuts grading of a full class **from hours to minutes** — teachers review and adjust every grade before it is final.
- Reads handwritten Vietnamese essays with OCR + LLM and drafts a score against each teacher's rubric.
- Built end-to-end and live at [gradeai.site](#), developed during the VinUni AI20K program.

hoantien.shop — Shopee Cashback Platform

2026

Full-Stack & Mobile Engineer

Tech: Next.js, Node.js, Prisma, Neon Postgres, Auth.js, Flutter, React Email · [hoantien.shop](#) · [App Store](#)

- **900+ users** earning cashback across web and a companion iOS app.
- Carefully versioned API so updates never break the app already in users' hands.
- Secure sign-in with reliable cashback & payout tracking.

OnDetour & Vocaberry — Mobile Apps (App Store)

2026

Mobile Engineer (Flutter / React Native)

[OnDetour — App Store](#) · [Vocaberry — App Store](#)

- **OnDetour** — **300+ travelers** plan trips, split budgets and travel together; live on the App Store.
- **Vocaberry** — **400+ learners** practice speaking-first English with AI pronunciation feedback; live on the App Store.

Way4 ATM Payments — Banking Platform

2024 · OpenWay

Associate Implementation Engineer

Tech: Way4, Oracle, PL/SQL, ISO 8583

- Integrated ATM flows (withdrawal, balance, transfer) on Way4 with ISO 8583-style routing and detailed logging in Oracle PL/SQL.
- Validated flows from test to production; **cut issue-isolation time ~45%**.

DK Bank — Digital Bank, Bhutan

2022 – 2024 · OpenWay

Frontend & Mobile Developer

Tech: React, React Native, Flutter, Next.js, GraphQL · [App Store](#) · [Google Play](#)

- Built customer banking apps & admin portals for a **national digital bank in Bhutan**, integrated over GraphQL.
- Reusable UI for card management, transfers, transaction history and role-based controls; **cut re-renders and load time ~40%**.

ACHIEVEMENTS

Codex Community Hackathon — Codex Community Vietnam

06/2026

- **1st Place** — “Reach the Market” track with **WonderLens**, an edtech AI app.
- **2nd Place** — Startup track with **VCareer**, an AI mock-interview platform.
